

**PEORIA AREA EMS SYSTEM  
PREHOSPITAL CARE MANUAL**

**Table of Contents**

|   |              |
|---|--------------|
| Foreword  | 2            |
| Hospitals of the Peoria Area EMS System                           | 10-11        |
| <b>Levels of Prehospital Care</b>                                 | <b>12-15</b> |
| EMS Services  | 12           |
| Prehospital Personnel   | 13-15        |
| <b>Provider Responsibilities</b>                                  | <b>16-41</b> |
| Agency Responsibilities Policy                                    | 17-20        |
| Professional Conduct & Code of Ethics Policy                      | 21-23        |
| Agency Compliance Waiver Policy                                   | 24-25        |
| Agency Advertising Policy   | 26           |
| System Certification Policy                                       | 27-33        |
| Re-Licensure Policy   | 34-41        |
| <b>EMS Communications &amp; Documentation</b>                     | <b>42-55</b> |
| Off-Line Medical Control Policy                                   | 43           |
| On-Line Medical Control Policy                                    | 44-47        |
| Radio Communications Protocol                                     | 48           |
| Patient Right of Refusal Policy                                   | 49-50        |
| Incident Reporting Policy   | 51-52        |
| EMS Patient Care Reports Policy                                   | 53           |
| Patient Confidentiality & Release of Information Policy           | 54-55        |
| <b>General Patient Assessment &amp; Management/EMS Operations</b> | <b>56-99</b> |
| Patient Destination Policy  | 57-58        |
| Transfer & Termination of Patient Care Policy                     | 59-60        |
| Transition of Care Policy   | 61-62        |
| Intercept Policy  | 63-64        |
| Patient Assessment Process & Goals of Patient Care                | 65-66        |
| General Patient Assessment & Initial Care Procedure               | 67-69        |
| Routine (Initial) Patient Care Protocol                           | 70-72        |
| Pain Control Protocol   | 73-75        |
| Basic Airway Control Procedure                                    | 76-77        |
| Airway Obstruction Procedure                                      | 78           |
| Esophageal Tracheal Combitube Procedure                           | 79-81        |
| Advanced Airway Control Policy (ILS & ALS only)                   | 82-85        |
| Orogastric (OG) Tube Insertion Procedure (ALS only)               | 86-87        |
| Intravenous Cannulation Procedure                                 | 88-91        |
| Adult Intraosseous Cannulation Procedure (ALS only)               | 92-95        |
| Medication Administration Procedure                               | 96-99        |

**PEORIA AREA EMS SYSTEM  
PREHOSPITAL CARE MANUAL**

**Table of Contents**

|  |                |
|--|----------------|
| <b>Cardiac Care</b>  | <b>100-139</b> |
| Routine Cardiac Care Protocol                              | 101-105        |
| Cardiogenic Shock Protocol                                 | 106-107        |
| Cardiac Arrest Protocol                                    | 108-111        |
| Resuscitation of Pulseless Rhythms Protocol                | 112-118        |
| Unstable Bradycardia Protocol                              | 119-123        |
| Narrow Complex Tachycardia Protocol                        | 124-126        |
| Wide Complex Tachycardia Protocol                          | 127-129        |
| Implanted Cardiac Defibrillator (AICD) Protocol            | 130-132        |
| Manual Defibrillation Procedure                            | 133            |
| Automated Defibrillation Procedure                         | 134-135        |
| Transition of AED Care Procedure                           | 136            |
| Cardioversion Procedure                                    | 137            |
| Transcutaneous Pacing (TCP) Procedure                      | 138            |
| 12-Lead EKG Procedure                                      | 139            |
| <b>Medical &amp; Respiratory Protocols</b>                 | <b>140-184</b> |
| Respiratory Distress Protocol                              | 141-147        |
| CPAP Procedure   | 148-149        |
| Altered Level of Consciousness (ALOC) Protocol             | 150-153        |
| Suspected Stroke Protocol                                  | 154-159        |
| Status Epilepticus/Seizure Protocol                        | 160-162        |
| Hypertensive Crisis Protocol                               | 163-165        |
| Acute Abdominal Pain Protocol                              | 166-168        |
| Acute Nausea & Vomiting Protocol                           | 169-172        |
| Allergic/Anaphylactic Reaction Protocol                    | 173-176        |
| Drug Overdose and Poisoning Protocol                       | 177-179        |
| Central Lines and Fistulas Procedure & Protocol (ALS only) | 180-181        |
| Blood Glucose Testing Procedure                            | 182-184        |
| <b>Environmental Emergencies Protocols</b>                 | <b>185-206</b> |
| Hazardous Materials Exposure Protocol                      | 186-189        |
| Hypothermic Emergencies Protocol                           | 190-193        |
| Heat-Related Emergencies Protocol                          | 194-197        |
| Burn Protocol  | 198-201        |
| Smoke Inhalation Protocol                                  | 202-204        |
| Near Drowning Protocol                                     | 205-206        |
| <b>Trauma Protocols</b>                                    | <b>207-236</b> |
| Routine Trauma Care Protocol                               | 208-214        |
| Shock Protocol   | 215-217        |
| Head Trauma Protocol                                       | 218-221        |
| Spinal Trauma Protocol                                     | 222-226        |
| Traumatic Arrest Protocol                                  | 227            |
