**Re:** Continuum and Trauma sheets

---

## **Charting Forms.**

There seems to be some confusion about what forms to chart on for Traumas and for Continuation of page (1) of the short form. The first attached page is for Traumas only. This sheet should be filled out on all Traumas's and left at the receiving hospital. These have also been recently updated so if you need some of the new ones let me know.

The second attached sheet is the Continuum. This page is to be used when more charting is needed for page (1) of the short form, or for a page (2) for the Trauma sheet. We have some of the Trauma sheets and Continuums at the PAEMS office. It is a limited supply so please let me know if you need some so I can order more.
