Re: STEMI Alert

Beginning October 1st, 2012 OSF Saint Francis is changing the code for an ST-segment Elevation Myocardial Infarction (STEMI).

The current code for a STEMI is “777” and is changing to “**STEMI Alert**”.

This change affects all of the OSF Facilities and is intended to eliminate the confusion associated with codes by using common language.

If you have any questions please feel free to contact me.
