Date: July 6, 2011

Re: Trauma Notification

---

We have had several miss-triaged trauma patients in the system over the past couple of weeks. As a reminder, per protocol, trauma notification should be made via **telemetry** as soon as possible. If there is any question if a specific call is trauma or not, contact medical control via telemetry and let a physician make the medical decision.

Thank you,

*Dave Klings*
